CROSS RESCUE  
GOD SAVES  
HELPING SAVIOUR  
KIND SIN  
KINDNESS TITUS

Can you find the hidden words?  
What are some ways God has been kind to you?

**PASSAGE:**

**TITLE:**

**PREACHER:**

**DATE:**

**1) PREPARE...**

Read the passage beforehand.

Think about what's happening in that book of the Bible (the introduction in a study Bible can sometimes help you).

Watch the *Bible Project* overview video for that book on YouTube.

**2) PRAY...**

It's not just an academic exercise, it's a spiritual one.

We need the help of the Holy Spirit to understand the Bible.

Ask God to help you to hear what he's saying. Pray for the preacher, that he'd be faithful and clear.

**3) POSTURE...**

It's about our attitude, not whether we're sitting straight – are you willing to learn or do you think you know it all already?

Be humble and teachable.

Come to a sermon expecting to meet God and hear from God.

**4) PARTICIPATE...**

Bring your own Bible to scribble in, underline or take notes. Or at least make sure you have a church Bible.

Have your Bible open; follow along – check that what the preacher is saying is actually in the Bible. Use your mind!

Taking notes might help you to concentrate – the main headings, particular challenges or Bible references. Be creative. Jot down any questions and ask the preacher later if necessary.

**5) PONDER...**

Learning takes time and repetition. We need to ponder.

Afterwards, scan through your notes.

Pray and ask God to help you remember what you've learned and to put it into practice.

Talking with someone about the sermon afterwards helps you to remember it.

**6) PUT INTO PRACTICE...**

What have you learned?

What difference will it make in your life?

What do you want God's help to change?

Look back your notes some time in the week to remind yourself.

**7) PERSEVERE...**

Stick at it, it gets easier.

Christians need to be those who are growing – who keep on going.

What 'shines' out in this passage?

Where do we see Jesus in these verses?

What questions do I have?

With God's help, what am I going to do differently?
